Target User

Students, beginners, and fitness enthusiasts who want to track their workouts and improve their fitness.

WHAT DOES THE USER SEE?

- Different fitness apps and workout plans
- Many types of exercises
- Fitness information on social media
- Difficulty finding a suitable workout plan
- Unorganized previous workout records

WHAT DOES THE USER HEAR?

- Fitness advice from friends and trainers
- Exercise recommendations
- Fitness tips from social media
- Suggestions to exercise regularly
- Motivational fitness content

WHAT DOES THE USER THINK & FEEL?

- “Which workout is suitable for me?”
- “Am I making progress?”
- “Am I doing the exercises correctly?”
- Feels confused about choosing exercises
- Wants personalized guidance
- Wants to improve fitness

WHAT DOES THE USER SAY & DO?

- Records workouts manually
- Searches for exercises online

- Tracks workout duration
- Tracks calories burned
- Tries different workout routines
- Wants to maintain a regular fitness routine

PAINS

- Difficulty maintaining workout records
- No personalized workout guidance
- Difficulty searching previous workouts
- Manual calorie and duration calculations
- Incomplete workout history
- Difficulty understanding fitness performance

GAINS

- Easy workout tracking
- Organized workout history
- Personalized workout plans
- AI-powered recommendations
- Fitness performance insights
- Improvement suggestions
- Better workout consistency
